

MATH 231 MULTIVARIABLE CALCULUS AND VECTOR ANALYSIS

Section 007 - Spring 2023

Instructor:	Kaichuan QI	Time:	MW 8:00 – 8:50
Email:	kaichuan@psu.edu	Place:	316 Wagner Bldg

Office Hour: Tuesday 15:45 - 16:45, or by appointment, at 012 McAllister Bldg.

Textbook: Calculus: Early Transcendentals, 4th Edition by Jon Rogawski.

Grading Policy: Achieve Homework (50), written homework (50), extra exercises (50), Midterm 1 (100), Midterm 2 (100), Final(150).

The extra exercises consists of a selection of problems which will be available during semester. These problems will be discussed during lectures, and the students will submit the solutions before the Final week.

Important Dates:

Midterm #1	February 7
Midterm #2	March 23
Late drop ddl	April 7
Final Exam	TBA

Homework Policy: Late homework are not accepted unless providing a documented reason (e.g. illness). You may discuss any homework problems with the instructor, classmates, study assistants etc., but your hand-in answers should be written in your own words.

Exams: There are two midterm exams and a final exam. Conflict or makeup exams should be requested before the exam day. A missed exam with no reason will count as zero, and no exams will be dropped for the final grade. Calculators/notes/books are not allowed during exams. See course syllabus for details.

Email Policy: You may expect to receive a reply in two days if you use your PSU email and address your questions or concerns in the title and content explicitly. Note that writing to the instructor using other mailing domains may result in no reply.
